# 30

## What is Thirsty 30?

Thirsty 30 is an annual campaign between Key Club and Thirst Project to help raise money to build water projects. The that kicks off in February, however you can participate at any time!

### What does the Thirst Project Do?

The Thirst Project is a non-profit organization that works to provide clean water to countries that do not have immediate access to it. The Thirst Project uses 100% of the money it collects to build wells and provide safe drinking water. Thirsty 30 is a great service project that's fun and will benefit those in need for years.

### More Information

All forms and more information can be found at <https://www.thirstproject.org/thirsty30/>. You can also find helpful tips here on raising money and tracking donations. You may also contact District Treasurer Raghav Chari at anytime for any questions.

## How it Works

- 1 Participate to pledge for Thirsty 30 **here**
- 2 Go get an envelope for each member in your club
- 3 Number each envelope one - the amount of envelopes you have. (If you have 30 envelopes order them 1-30.)
- 4 Give each member in your club an envelope. Their goal is to raise the amount of money on the envelope.
- 5 At the end of 30 days have them turn the envelopes in. Count the money you raised and send it into Thirst Project to help build water projects!
